

COMPANY INFORMATION

Since its formation in 1975 Ralken Colours has seen an outstanding growth in its manufacturing capability offering a diverse range of products for many market sectors.

Ralken Colours has undertaken a continued programme of development of its operations in Bradford West Yorkshire including regeneration of offices, research and development, quality control and technical service laboratories, warehousing and production.

This has been supported by a heavy investment in a bespoke computerised information system that offers full product trace-ability from purchase and sales order processing to laboratory, production, warehousing and distribution.

WHY CHOOSE US?

Ralken Colours can provide that solid working partnership, a basic attribute, which has to be at the core of any good business relationship from the start.

Ralken Colours places a heavy emphasis on continuous product improvement and has the ability to innovate towards market and environmental requirements. Dynamism, innovation and the obsession to succeed are the main factors that drive the company.

The philosophy of the company is to provide quality products and a professional service aimed at guaranteeing customer satisfaction at all times.

Ralken utilises a wealth of technical expertise in the colouration field.

The production of bespoke products to meet a customers specific requirements is a growing part of Ralken Colours business.

Ralken Colours offers a toll manufacturing facility for its business partners where confidentiality is assured throughout all of its operations.
